

# HELPING YOU CHOOSE THE RIGHT TOOLING SOLUTION

Ready to think differently about your tooling costs and realise the financial benefits to your business? Boost your productivity, throughput and profitability with Quickgrind.

## BUSINESS IMPACT

Tooling investment is usually 6-9% of turnover, which can seem insignificant. But the impact of not having the right tooling can be costly through rework, production delays and the risk of unhappy customers.

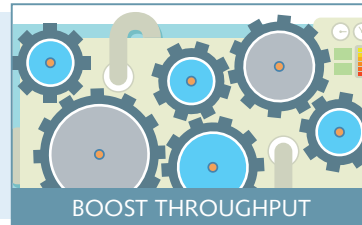

WEAR FASTER

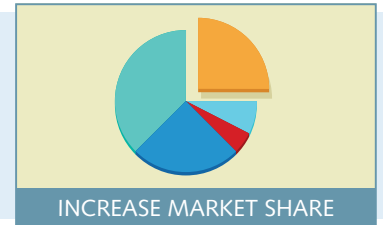

COMMERCIALLY RISKY

## FOCUS ON THROUGHPUT

Many believe buying on unit costs keep costs down, but if you just focus on costs you might as well switch off the lights and go home. For profitability and business growth focus on throughput.

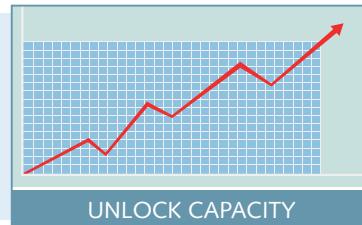

BOOST THROUGHPUT

INCREASE MARKET SHARE

## COST EFFECTIVE PRODUCTION

Implement the Quickgrind system and you can increase throughput and reduce tooling costs as a % of turnover significantly. Unlock hidden capacity, increase productivity and keep employees and customer happy.

UNLOCK CAPACITY

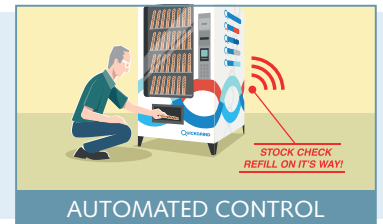

REDUCE COSTS

## VENDING SOLUTION

Use our tool management solutions to help reduce costs, it's all part of our approach. You can even use up your current tool stocks in our vending systems, and we'll replenish with Quickgrind tools.

EASY MANAGEMENT

AUTOMATED CONTROL

## INTEGRATED APPROACH

Embrace our integrated approach and with tooling advice and tool management you will have the right tool to hand when you need it. With remanufacturing for maximum return you can lower your tooling costs, increase your capacity and profitability.

RESPECTED EXPERTISE

HAPPY CUSTOMERS

## EXPERIENCE QUICKGRIND

Yes your current suppliers may be reliable, but do they help you grow your business? Visit our facility and experience the Quickgrind system in practice. An hour or two of your time here – can save you a lot of money in the future.
